

# ComNet® 8800

*Best Design!*

*Excellent Quality!*

*Outstanding Capability!*

## Seize the Spotlight!

Chungho Comnet provides the most reliable, versatile and cost effective models. Our next generation cash dispenser, the ComNet 8800 is designed to create efficient self service with fully advanced functions. It has bright features, outstanding capabilities and excellent qualities. The ComNet 8800 is now in the center stage as a new feature of global business.

### Reliability

Designed with key technology and deep understanding of our customers' needs, the ComNet 8800 can offer outstanding quality standards and a reputation for excellent value.

### Security

With its UL291 Level 1 cabinet, PCI certified EPP, security camera and anti-skimming EMV card reader, the ComNet 8800 is equipped for the highest level protection.

### High Capacity

The ComNet 8800 manages large capacities of cassettes and high transaction volumes. It is configured with 4 denominations with capacities for up to 3,000 notes for each cassette and a receipt printer for 5,000 transactions.

### Customization

Our ComNet 8800 Series technology can support future compliance and application needs in the banking industry by offering various options based on the customers' specific needs.

# ComNet® 8800
